About Us

Capital Cooling is a UK based commercial refrigeration specialist exclusively supplying trade partners the length and breadth of the country.

Over the last 15 years Capital Cooling have developed and refined our own range of innovative refrigeration products, each item designed to meet the highest standards while delivering exceptional performance, energy efficiency and reliability.

In addition to this we are proud to work with a number of premium manufacturers from around the globe. Each of our partners is a specialist within their own sector and their products have been hand-picked to complement our own range.

The end result is a comprehensive product portfolio for the retail, leisure, hospitality and foodservice sectors that makes Capital Cooling a single point of contact for all of your refrigeration needs.

Rethinking Refrigeration

In 2018 we launched our #RethinkingRefrigeration campaign and we have been overwhelmed with the support it has received.

Rethinking Refrigeration places the emphasis on supporting the UK's refrigeration specialists, the traders and engineers whose knowledge and experience is the backbone of our industry. Our end goal is to change the way people think about their refrigeration needs and to move the market to a position where it is once again quality, reliability, customer service and total lifetime value that drives the buying process and not simply the cheapest possible purchase price.

Industry Leading Infrastructure

From design and manufacture to delivery and after-sales support Capital Cooling offers a complete, end-to-end solution for your commercial refrigeration needs.

We are exceptionally proud of our infrastructure and it is what really makes Capital Cooling stand out from the rest of the industry. Whether a client requires one or one thousand cases our ability to control every step of the process from concept to completion ensures we can provide customers with the best possible service time and time again. From bespoke product enhancements to customised delivery options Capital Cooling can provide a fast, flexible and first class service.

Cabinet production line

Rethinking the Supply Chain

The products you require delivered precisely when you need them. That's the Capital Cooling supply chain guarantee.

Operating from a brand-new distribution hub in the heart of the country Capital Cooling is perfectly set up to serve our partners no matter where they are in the UK. With more than £2m of stock ready to be dispatched at any given time we have one of the largest stockholdings of any refrigeration company in the UK.

We understand that not every purchase can be planned, that is why we endeavour to have stock of every key product line 365 days per year enabling you to put your faith in Capital Cooling.

⌘⌘ We provide a concise
end to end service
from design, manufacture, warehouse,
delivery and installation. ⌘⌘

Warehouse, Kettering

Delivery & Installation

An industry leading delivery network, dedicated project managers and experienced installation teams combine to offer an unrivalled service that our partners can rely on.

For more than 20 years we have operated our own fleet of delivery vehicles, each one staffed by experienced members of our installation team. Often going above and beyond to ensure clients demands are not only met but exceeded. In addition, Capital Cooling now offer cost effective, pallet-based, next day delivery options across many of our product ranges for those urgent, business critical purchases. For clients that require the complete package we can offer unpacking, positioning and uplifts in addition to specific time and out of hours services.

After Sales Support

At Capital Cooling we see a sale as the start of a relationship not the end, and our dedicated team of specialists are on hand to assist at any point during the lifecycle of your product.

Whether you require assistance with controller settings or help to troubleshoot a problem our Technical Support team will be at your disposal. Their exceptional knowledge of our products is an invaluable tool to our partners. When on-site support is required, we have a hand-picked network of refrigeration specialists on call to provide fast and reliable support across the country. Furthermore, Capital Cooling holds more than £300k of parts stock at any given time, ready to be dispatched, ensuring that should the unthinkable happen, you can get up and running again as quickly as possible.

Sustainable green technology
that benefits the planet through
high energy efficiency and savings

Rethinking Our Green Future

All our products now
use natural, low
ODP refrigerants as
standard

R290 R600 R1270

These natural refrigerants have much lower Global Warming Potential [GWP] when compared to traditional, chemical options. Not only do these natural variants benefit the planet, they also benefit the user as they offer performance enhancements and energy savings.

FGAS
CERTIFICATION

Our Recycling Service

As part of our commitment to the environment we offer a full remove and recycle service for all of your end-of-life refrigeration equipment. We work with several accredited partners to maximise recycling and minimise landfill impact.

Galaxy

Plug-in multideck

One of, if not the most popular plug-in multidecks in the UK, the Galaxy is the chiller of choice for many of the country's leading high street brands. It is easy to see why thanks to the perfect combination of performance, practicality, and price. Upgraded for 2021 the Galaxy now utilises fully natural R290 refrigerant as standard.

- 4 x 400mm shelves + base
- Slide out machinery tray
- Mirror gable walls as standard
- Automatic defrost
- Multiplexable
- Digital controller
- 3M1 temp range for meat, dairy, BWS and snacks
- Slow rise night blind
- Optional lockable roller shutter

Galaxy FGD

Plug-in multideck

Fast becoming one of our most popular products thanks to our industry leading Free Doors campaign, the Galaxy FGD delivers all the merchandising benefits of the open front model but with significant reductions in energy consumption. Furthermore, for 2021 the Galaxy FGD now utilises R290 for additional savings and lower environmental impact.

- 4 x 400mm shelves + base
- Optional glazed gable ends
- Soft-close doors
- Automatic defrost
- Multiplexable
- Natural R290 refrigerant
- EPOS ticket strips
- Digital controller
- LED canopy illumination
- Slide-out machinery tray

Quantum

Plug-in multideck

- New for 2021 the Quantum is the latest addition to our plug-in multideck range. Designed to maximise the merchandising window the Capital R&D team have reduced the base height and canopy depth creating the largest display area in its class. All models in the Quantum range can also be multiplexed, seamlessly integrating chilled (open and glass door) with frozen display for a consistent in-store aesthetic.
- 740 or 880 depths
 - 4 x 400mm (740) or 500mm (880) deep shelving
 - Canopy LED illumination
 - Automatic defrost
 - Multiplexable
 - Digital controller
 - 3M1 temperature range
 - Mirror or glazed gable walls
 - Slide out machinery tray
 - Natural R290 refrigerant

Quantum FGD

Plug-in multideck

Brand new for 2021 the Quantum FGD has the lowest front of any plug-in multideck we manufacture. When combined with the slimline canopy and frameless FullVision doors it gives the Quantum a class leading Total Display Area. Underneath the attractive exterior sits an efficient refrigeration system featuring our all new compressor and controller technology operating on natural R290 refrigerant.

- 740 or 880 depths
- 4 x 400mm (740) or 500mm (880) deep shelving
- 320mm base height
- FullVision frameless doors
- Thermostatic expansion valve
- Automatic Defrost
- Multiplexable
- Natural R290 refrigerant
- EPOS ticket strips
- LED canopy illumination
- Slide-out machinery tray

Quantum Low

Plug-in multideck

The Quantum Low is a flexible retail solution that can be used as either a stand-alone low height multideck or multiplexed together to create a 360-degree chilled island display. At just 1500mm tall the Quantum low is ideal for mid-store placement yet with 3 adjustable shelves + base it still has a merchandising area that defies its size.

- Staggered 250/300/350 shelving + base
- Slow rise night blind
- Canopy LED illumination
- Digital controller
- 3M2 temperature range
- Optional dual glazed doors (hinged or sliding)
- Automatic defrost
- Multiplexable
- Shop around end available

Trojan MK3

Remote multideck

Updated for 2021 it is a case of evolution rather than revolution for the exceptionally popular Trojan multideck. The refreshed and modernised look perfectly complements the performance of the case which still retains its key selling points such as 450 deep shelving, ultra-low front, and canopy lighting. The Trojan also remains our most customisable case with two height options, two depth options and a wide range of accessories available.

- 5 x 450mm shelving + base
- 3M1 temperature range
- Choice of heights: 2020/2170
- Choice of depths: 745/890
- EPOS strips
- LED canopy lighting
- Slow rise night blind
- Top entry pipework
- Digital controller
- Compact electrical box
- Wide range of colour, size and lighting options available
- Expansion Valve included
- Mirror or panoramic end walls

Trojan Low

Remote multideck

Maximise impulse purchases with a perfectly positioned chilled display thanks to the Trojan Low remote multideck. At only 1503mm tall this cabinet can be placed anywhere within the store, either individually or as part of a multiplexed island display. Two case depths are available making this the perfect choice for stores of all sizes. New for 2021 the Trojan Low is now available in polished stainless steel in addition to the standard painted RAL colours.

- 3 tiers of adjustable shelves
- 3M2 temperature range
- Two depths available
- Canopy LED illumination
- Digital controller
- Automatic defrost
- EPOS strips
- Choice of RAL colours or stainless steel
- Multiplexable design

Trojan Frozen

Remote freezer

A new addition to the range for 2021 the Trojan Frozen perfectly matches the aesthetics of the chilled displays enabling retailers to create complementary chilled and frozen displays within their store. An exceptionally high-capacity freezer, the Trojan Frozen delivers huge merchandising capabilities with 5 x 550mm shelves and base as standard. For stores that require that little bit extra an extended height 2170 version is also available.

- 5 x 550mm adjustable shelving + base
- 3L1 temperature range
- EC Fans
- Digital controller
- LED mullion lighting
- Top entry pipework
- White interior
- Choice of exterior colours
- Multiplexable

Orion - Semi Vertical Plug-in or remote multideck

A new addition to the range for 2021 the Orion Semi Vertical adds a self-service option to the already popular range of serve over displays. Designed to match and multiplex to the serve over options the Orion SV is already proving popular with large retailers who are drawn to its modern looks and large merchandising area.

- Remote or plug-in options available
- Curved or square glass
- Multiplexable
- 2 shelves + base
- Choice of RAL colours or stainless steel
- EPOS strips

SIFA Promoter

Remote serve-over

The Promotor is the flagship product in the SIFA range and showcases their exquisite design approach and attention to detail. The structure of the case has been created in such a way as to minimise any visual obstructions of the contents, putting all focus on the products, not the chiller displaying them. A wide range of options, colours and customisations are available on request, contact us for further information.

- Integral or remote refrigeration system
- Available with ventilated or static cooling
- Climate class 4
- Suitable for fresh meat, dairy and deli
- Option of lift up or drop down front glass
- Undercounter storage
- Choice of colours, accessories and options
- 830mm deck depth (ventilated)
- Bakery / Neutral temperature option available
- Self-service options

Our new nationwide storage & dispatch hub in Kettering

£2million of stock held ready for rapid dispatch

10 thousand separate deliveries to UK destinations every year

GDM MK2

Plug-in display chiller

The GDM range of display chillers has been designed with one thing in mind - to increase impulse sales of chilled produce. With a high capacity for maximum facings, LED lights, illuminated canopy and the option of custom branding it is the perfect chiller for any store. Like all products in the 2021 range the GDM uses a natural refrigerant, in this instance R600.

- Self-closing door(s)
- Fan assisted cooling
- Aluminium interior
- Castors
- Internal LED illumination
- LED illuminated canopy
- Suitable for high ambient temperatures
- Adjustable shelving
- Automatic defrost

Atom

Plug-in display chiller or freezer

The Atom, new for 2021, has been designed using feedback from our partners who demanded a high performance display freezer with a compact footprint. The neatly packaged refrigeration system utilises R290 refrigerant for maximum performance and minimum environmental impact. Considerations have also been made for branding with an LED illuminated light box.

- 1, 2 and 3 door models available
- Matching chiller options
- Choice of colours
- Automatic defrost
- Frameless doors
- Digital controller
- Adjustable shelving
- LED internal illumination
- Self-closing doors
- Heated D:mist doors

SIFA Swing

Gelato display

The Swing from SIFA is a ventilated professional showcase, designed and manufactured in Italy to the highest of standards. Available to suit the display of gelato, pastries, and chocolate the Swing will add a touch of Italian style to any retail outlet. In addition to the two height options available these cases can also be multiplexed, combining chilled, frozen and neutral to create an exceptional in-store experience.

- Gelato, Patisserie and Chocolatier options
- Two height options available
- Climate class 4
- Heated glass
- Drop-down front glass for easy cleaning
- LED lighting
- Rear access cover
- Automatic defrost
- Ventilated cooling
- Neutral counters also available
- Multiplexable

SIFA Start

Gelato display

While the Start from SIFA may have a more conventional and traditional look thanks to it's curved front glass what lies beneath is far from conventional. An advanced refrigeration system delivers consistent cooling to ensure that the contents are always at exactly the right temperature. In addition, the Start range offers refrigerated corner sections which can be multiplexed to create unique, and eye catching in-store displays.

- Gelato, Patisserie and Chocolatier options
- Refrigerated corner sections available
- Climate class 4
- Heated glass
- Lift up front glass with hydraulic assistance
- LED lighting
- Rear access cover
- Automatic defrost
- Ventilated cooling
- Neutral counters also available
- Multiplexable

SAYL Curved Pak

Plug-in display

With it's striking looks and integrated – colour adjustable – LEDs the Curved Pak is a truly unique showcase. The Curved Pak is available with either front, rear or dual access via sliding doors which are integrated into the case in such a way as to not impact the storage capacity. It offers unrivalled product visibility thanks to the unique construction and dual LED shelf illumination. It also performs as well as it looks with 22mm insulation on the glass which minimises energy consumption.

- Available in assisted, self-service or pass through configurations
- Versatile usage for sushi, pastry, cheese/dairy, grab & go, drinks and wine
- Customisable LED exterior accents
- Double LED shelf illumination
- Adjustable shelving
- Energy efficient design
- Large touch-screen controller
- Optional 9 bottle wine shelves

Custom counters and bespoke café solutions

SAYL ✨

SAYL Logic

Countertop display

The Logic range consists of three distinct models - Tapas, Sushi and Bain Marie. While each model has a specific purpose they all share a number of key features such as tempered glass, gloss black finish, high power LEDs, stainless steel construction and easy access for cleaning.

The Logic Sushi stands on its own as the only display of its kind to feature dual glazing - ensuring it continues to offer perfect visibility in even the toughest humidity conditions.

- Tapas, Sushi and Bain Marie options
- Stainless steel construction
- Tempered Glass
- High power LED's
- Plug-in installation
- Sliding doors for assisted serve access

SIFA Kronos

Kronos from SIFA creates the perfect harmony between technology and design by incorporating LED lights with the aluminium and methacrylate décor panels. It allows café's, bars and restaurants to create striking counters and workspaces comprising of refrigeration, ambient storage and flexible working areas.

Colours and work surfaces can be customised to suit the ambience of the store while the modular design ensure that Kronos can be manipulated into any required configuration. Whether it is coffee, food, alcohol or a combination of all three that is on offer Kronos is the perfect solution.

To find out more about the Kronos and other turnkey solutions contact Capital Cooling today.

Lacquered Panels, Red Vernis Glossy

SIFA Multiline

The Multiline Collection from SIFA is a new and complete selection of counters and shopfitting's for the retail and hospitality sectors that have been born from more than 50 years experience in the marketplace.

From the classic looks of the Horus to the modern lines of the Flux the Multiline Collection has a style to suit every retail location.

While the style can change significantly across the Collection the overriding ethos is the same - to create bespoke, stylish, high-quality counters and workspaces that seamlessly integrate ambient, chilled and storage solutions into one perfect package. With such a large list of styles, options and accessories to choose from we recommend getting in touch with our team who can discuss the requirements and provide a bespoke proposal.

Ilsa Evolve Blast Chiller

Blast chiller & freezer

The blast chillers of the Evolve line offer technologically complete solutions and are the ideal combination of value for money, efficiency and reliability. The LCD electronic board enables the equipment to automatically calculate all cycle parameters according to the type of food to be blast chilled or shock frozen. Simply enter the core probe and start the cycle - the automatic system will then do the rest. The range consists of models for between 5 and 20 GN 1/1 trays.

- Positive cycle of +90 to +3
- Negative cycle of +90 to -18
- Intelligent cycle set up
- GN 1/1 tray runners
- Easy touch digital controller
- 60mm thick high density insulation
- 304 grade stainless steel
- Manual defrosting
- Manual evaporation

Coldrooms

Kube

Plug-in or remote coldroom

Kube rooms have a fully camlocked design allowing the room to be quickly and easily installed. The camlock system adds structural rigidity, improves room integrity, and eliminates the need for any silicone. The Kube has 28 x different room sizes that are in increments of 300mm starting at 1200mm. Kube rooms can be supplied with 'in panel' integral refrigeration that cuts down the installation time dramatically.

- Fully camlocked
- Reversible doors for left or right hand hinged
- White food safe finish to all panels
- Stainless steel floor as standard
- 'In panel' integral refrigeration
- Installation time less than 2 hours
- Silicone free joints
- Corner panel technology
- Up to 43°C ambient working temperature

kube 

Kube

KubePlus

Plug-in or remote coldroom

KubePlus rooms have a semi camlock design allowing the walls to be easily connected at the twist of a tool. This adds structural rigidity, improves room integrity and reduces construction time. KubePlus rooms are designed around the requirements of the client, maximising the area available. We offer a comprehensive range of equipment and variations that can be tailored to suit any application and footprint. KubePlus rooms are industry leading with high quality PIR panels that offer superior fire rating while keeping the benefits of a camlock construction.

- PIR semi camlocked room with superior fire-retardant properties
- Insulation B,s2,d0
- White food safe finish to all panels
- 80mm to 150mm panel thickness
- Any room size
- All door types
- Aluminium / Stainless steel floor finishes
- Integral or remote refrigeration
- Butchery hanging rails
- 0 GWP & 0 ODP special application refrigeration solutions available

Foodsafe White Stainless Steel

KubeUltimate

Plug-in or remote coldroom

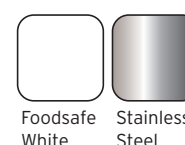

The result of a no-compromise design process the KubeUltimate from Capital Cooling is a high quality cold and freezer room solution for clients who demand nothing but the best. Every industry has its own needs and requirements - the KubeUltimate can be tailored to suit each and every one. From foodservice to pharmaceuticals and bakeries to DNA storage there is a Kube solution that has been designed, tested and guaranteed to perform year after year. Each KubeUltimate room will be designed from scratch taking into account all aspects of its proposed location. Each element of the room, from wall thickness to temperature range and accessories can be specified at the time of design.

- Fully cam locked room
- Tongue and groove panels
- Superior panel construction
- Any door size - Hinged or sliding
- Any room size
- Any floor finish - Stainless steel as standard
- Heavy duty floors as an option
- Integral or remote refrigeration
- Internal panel seals
- Handle-free doors with magnetic door seals
- Fire retardant B1 rated insulation available

Terms & Conditions of Sale

1. Defined Terms

1.1 In this Agreement the following words shall have the following meanings: "Agreement" means (i) the Quotation and (ii) the Terms and Conditions; "Care Manual" means any care manual provided to the Customer in respect of any of the Goods by the company; "Company" means Beheren Limited T/A Capital Cooling (Company Number 11467412) "Customer" means the individual, firm or company to whom or which the Quotation is addressed;

"Delivery Site" means a specified address in the UK to be agreed in writing between the Company and the Customer (or such other address in the UK notified by the Customer to the Company in accordance with clause 5.2 below);

"Goods" means the items specified as Goods in the Quotation; "Manufacturer's Guarantee" means any guarantee given by the manufacturer of any Goods;

"Quotation" means the e-mail or letter from the Company to the Customer to which these Terms and Conditions are attached;

"Price" the amount payable for the Goods as specified in the Quotation; "Terms and Conditions" means the terms and conditions of supply set out herein; and

"Working Days" means a day (other than a Saturday or Sunday) on which clearing banks are open for business in London. 1.2 In this Agreement, (i) the singular shall imply the plural and vice-versa and (ii) headings are for convenience only and shall not affect the interpretation of this Agreement

2. Basis of Supply

2.1 The Company shall supply the Goods to the Customer in accordance with the Agreement. 2.2 The Agreement shall commence on the date of receipt by the Company of confirmation from the Customer that the Customer wishes to proceed with the order of the Goods on the basis of the Agreement or the first date of acceptance of delivery of any of the Goods by the Customer (whichever is the earlier). 2.3 Unless otherwise agreed in writing between the Company and the Customer, the Quotation shall be valid from the date of its issue to the Customer for: (i) 30 days in respect of any service parts which form part of the Goods; and (ii) 30 days in respect of any plant and equipment which form part of the Goods.

3. Guarantee

Subject to clause 8.3 below, the Company's liability in respect of any defect in or failure of the Goods supplied is limited to the liability of the manufacturer under any guarantee ("the Guarantee") given by the manufacturer in respect of the Goods and is subject to; (i) the Customer having complied fully with the Care Manual and the manufacturers recommended service intervals and (ii) the manufacturer accepting its liability under the Guarantee.

4. Prices/Payment

4.1 Subject to any terms or conditions of payments set out in the Quotation, the Price shall be due by the Customer to the Company upon the first date of delivery of any of the Goods. 4.2 The Company shall be entitled to conduct, or arrange for a third party to conduct, a credit check on any Customer at any time prior to delivery and shall be entitled to with-hold performance under this Agreement or terminate this Agreement without the Company incurring any liability to the Customer in the event that such a credit check discloses any information which in the opinion of the Company (acting reasonably) raises concerns regarding the ability of the Customer to pay any sums which will or may be due by the Customer under this Agreement. 4.3 All sums payable under the Agreement shall become due and payable immediately upon the happening of any of the following events: bankruptcy, winding -up or insolvency proceedings are brought in respect of the Customer or (without limitation) if the Customer does not make any payment under a judgement of a Court on time, or makes an arrangement with or in respect of any of its creditors, or has an administrative or other receiver or a manager of the whole or any part of its property appointed or goes into liquidation; or has a petition presented for its

sequestration or is sequestered or an interim trustee or a trustee in bankruptcy is appointed in respect of its assets; or any distress, diligence or execution is levied on any of the Customer's goods; or an administrator is appointed to the Customer; or there occurs in any territory any event which corresponds to that territory to any of the events specified under this clause

4.4 In the event of non-payment by the Customer of any sums due by the Customer under this Agreement, the Company also reserves the right to: (i)terminate or suspend the Agreement; and(ii)charge interest upon the outstanding amount at a rate of eight per cent per annum above the base rate from time to time of the Bank of England, running said interest from the due date for payment of the relevant sum until payment of the outstanding amount together with any interest due thereon is made in full to the Company (both Parties agreeing that this rate of interest is in all respects fair and reasonable).

5. Delivery Period

5.1 Any part of this Agreement which relates which relates to the time or rate of delivery, erection or installation of any of the Goods shall constitute an estimate only and shall not be constructed as constituting a binding obligation on the Company or a warranty or guarantee by the Company of any kind. Time is not of the essence in respect of any such estimate. The Company shall, however, use its reasonable endeavours to deliver, erect and install the Goods in accordance with any such estimate. 5.2 Delivery of the Goods will take place at the Delivery Site. As soon as practicable following the Goods becoming available for delivery, the Company shall provide the Customer with the up-to-date delivery, erection and installation date(s) for such Goods. The Customer shall notify the Company within 3 working days of such notification or 3 working days prior to the up- to-date estimated delivery, erection and installation date(s) (whichever is the earlier) of any change in the address of the Delivery Site. In the event that such notification by the Customer is not made timeously and the Customer wishes the Goods to be delivered and installed at a site other than the Delivery Site, the Customer shall arrange delivery, erection and installation of the Goods at its own cost and expense. 5.3 In the event that the Company is unable to complete delivery of the Goods to the Delivery Site due to any act or omission of the Customer, the Customer shall pay such delivery, storage and other ancillary costs properly incurred by the Company in completing such delivery (in addition to the Price). 5.4 For any incorrect deliveries made by the Company to the Customer, the Company shall only be liable to replace the Goods delivered in error within a reasonable time and then only in the event that (i) the Customer has notified the Company of the incorrect delivery within 5 Working Days of such delivery and (ii) the Goods have been made available for uplift by the Company at a reasonable time notified by the Company to the Customer and are in good condition at the time of such uplift.

6. Access to Site

6.1 Subject to clauses 5.3 and 6.2 hereof, the cost of delivery, erection and installation of the Goods by the Company at the Delivery Site is included in the Price, provided that throughout the time of such delivery, erection and installation at the Delivery Site: (i)the area in which the Goods are to be installed is clear and available;(ii)the Delivery Site has clear access for normal transport;(iii)reasonable working space and full use of all necessary electrical, water or other services is available for the Company's employees and sub-contractors at the Delivery Site; and(iv) the delivery, erection and installation can be carried out between 0830 and 1700 hours on weekdays.6.2 The Customer shall be liable for any delivery, erection and installation costs properly incurred by the Company as a consequence of any of the Delivery Site conditions not being as specified in clause 6.1 The Company shall not supply any labour materials for any builder's work, plumbing, decorating, electrical wiring, woodworking, shop fitting, glazing or making good any brickwork, woodwork, tiling, pipe work or other parts of the Delivery Site unless previously agreed in writing by the Company and the Customer. Any such labour or materials necessary for, or as a result of, the delivery, erection and/or installation of the Goods shall be the responsibility of, and at the sole expense of, the Customer.

7. Risk and Responsibility for the Goods

7.1 All risk and responsibility for the Goods shall pass to the Customer on delivery of same to the Customer by the Company. The Customer will fully insure the Goods against theft, damage and destruction from the time of such delivery until the time of transfer of ownership of the Goods to the Customer. 7.2 In the case of transportation on behalf of the Company by a third party carrier, delivery will be deemed to occur at the moment when those items are delivered to that carrier and the Customer will fully insure the Goods against theft, damage and destruction from the time of such deemed delivery until the time of transfer of ownership of the Goods to the Customer. 7.3 Notwithstanding delivery of the Goods or the passing of risk or responsibility in the goods thereon, until such time as all sums due by the Customer to the Company under or pursuant to this Agreement shall have been paid in cleared funds to the Company: (i) ownership of the Goods shall remain with the Company; (ii)the Goods shall be kept in such a way as to be readily identifiable as the property of the Company; and (iii) the Company shall have the right to remove any of the Goods (whether they have been installed or otherwise) at the sole cost, liability and expense of the Customer and the Customer shall grant the Company full access to the Goods

8. Loss

8.1 Subject to clause 8.3 below, the Company shall have no liability whatsoever for any consequential loss or damage (including, without limitation, loss of profits) arising from any faulty operation of the Goods whatsoever. 8.2 Except as expressly provided in this Agreement (including, without limitation, clause 8.3 below) all warranties, conditions, representations or other terms implied by statue or common law as to the quality of the Goods or otherwise are excluded to the fullest extent permitted by law. 8.3 Nothing in this Agreement shall, or shall be construed as, purporting to exclude or restrict liability in respect of death or personal injury.

9. Force Majeure

9.1 Notwithstanding anything else contained in the Agreement, neither party shall be liable for any delay in performing its obligations hereunder if such delay is caused by circumstances beyond its reasonable control (including, without limitation, any delay caused by a breakdown in industrial relations of failure of delivery by a Third Party.) Subject to the party so delaying promptly notifying the other party in writing of the reasons for the delay and the likely duration of the delay, the performance of such party's obligations shall be suspended during the period that the said circumstances persist and such party shall be granted an extension of time for performance equal to the period of delay. 9.2 Save where a delay is caused by the act or omission of the other party (in which event the rights, remedies and liabilities of the Parties shall be conferred and imposed by the other terms of the Agreement and by law): (i) any costs arising from such delay shall be borne by the party incurring the same; and (ii) either party may, if such delay continues for more than 2 months terminate the Agreement forthwith on giving notice in writing to the other in which event neither party shall be liable to the other by reason of such termination.

10. Cancellation

Orders placed cannot be cancelled except with the Company's consent and on terms which will indemnify the Company against any loss or damage which may be suffered by the Company as a result of such cancellation. Goods returned without the Company's consent will not be accepted for credit.

11. General

11.1 The Agreement supersedes all prior agreements, arrangements and understandings between the Parties in relation to the subject matter hereof. Subject to clause 5.2 above, no addition to or modification of any provision of the Agreement shall be binding upon the Parties unless made by written instrument and signed by a duly authorised representative of each of the parties. 11.2 The Company shall be entitled to assign or sub- contract any of its rights or obligations under this agreement. 11.3 Subject to clause 5.2 above, the terms and conditions of this Agreement shall prevail over any terms put forward by the Customer unless the Company expressly

agrees otherwise in writing. No conduct by the Company shall be deemed to constitute either acceptance of terms put forward by the Customer or a variation of the terms of this Agreement. 11.4 In the event of any inconsistency between any provision of these Terms and Conditions and any provision of the Quotation, the relevant provision of the Quotation will prevail. 11.5 If any provision or any part of any provision of this Agreement shall to any extent be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions or part of that provision shall not in any way be affected or impaired thereby and each of the provisions of this Agreement shall be valid, legal and enforceable to the fullest extent permitted by law. 11.6 The Agreement shall be governed by and construed in accordance with English law and the Parties hereby submit to the non-exclusive jurisdiction of the English Courts

12. Delivery

If, at your request, we agree to hold some products in storage at our premises ("the Stored Goods"), each batch of Stored Goods will be deemed delivered (and the risk in, including in respect of loss of or damage to, that batch of Stored Goods shall pass) to you at the date and time of commencement of such storage of that batch of Stored Goods.

For the avoidance of doubt and notwithstanding the storage at our premises of the Stored Goods, save only as set out in this condition, all of the remaining Terms and Conditions of sale remain unaffected by this condition and shall continue to apply (including, without limitation, the provisions relating to price, invoicing and payment terms).

13. Orders

All orders for products and each delivery of items made pursuant to an order are divisible and shall be deemed to arise from a separate contract, and Shall be invoiced separately and shall be payable in full without deduction or set off in accordance with the terms of payment under these Terms and Conditions.

14. Storage Charges

Should a Customer request a delay to delivery which is in excess of 7 days from the original agreed delivery date for the Goods then the Company reserves the right to charge for the storage of these Goods. This storage charge shall be calculated on a weekly basis. Any period of time less than 7 days shall be counted as a full week. A full list of storage charges per product is available upon request.

Terms & Conditions of Delivery

Free Next Day Delivery

- Delivery to a mainland UK business address
- One person, palletised, doorstep delivery
- Unrestricted ground floor access
- Deliveries will take place between 08:30 and 17:00 Monday to Friday
- Deliveries will not take place on public holidays
- Orders must be placed by 12:00 to be eligible for next day delivery
- A minimum aborted delivery charge of £125+VAT applies to all failed deliveries.
- All items must be signed for and damages/errors advised of at time of delivery

Free 5 Day Delivery

- Delivery to a mainland UK business address
- Two man delivery into site
- Unrestricted ground floor access
- Deliveries will take place between 08:30 and 17:00 Monday to Friday
- Deliveries will not take place on public holidays
- Deliveries will be booked in 24 hours in advance and a 4 hour time slot provided. Please note this is only advisory and may be subject to change.
- A minimum aborted delivery charge of £125+VAT applies to all failed deliveries.
- All items must be signed for and damages/errors advised of at time of delivery

POA Delivery

Due to the size and nature of some products we quote on a per-order basis for delivery to site. This is to ensure that we provide the best possible service at the best possible price to our clients.

Delivery of the following items is available upon request:

- Trojan (all models)
- Zeus
- Orion (all models)
- Vega
- Promotor
- KubeUltimate

Unpack & Positioning

Positioning is only available in conjunction with our 5 day delivery service and is not available with next day or courier delivery and is a chargeable service at the advised rates within this price list.

As part of this service all outer packaging materials will be removed and the item will be positioned in the desired location within the site. This assumes unrestricted ground floor access to this position.

Please note, our positioning service **does not** include the removal of protective coatings/coverings on stainless steel items. Should this be required please contact our team for a quote.

Next Day Delivery

We can offer a next day doorstep/palletised delivery service throughout the UK. Orders must be placed by 12pm to be eligible for next day delivery.

Out of Hours

Should you require delivery to take place outside of standard business hours the following charges apply in addition to any other incurred delivery costs for your selected options:

- Weekdays - £225
- Weekends - £450

Specified Day / Time Delivery

Should you require delivery to take place on a specified day or at a specified time the following charges apply in addition to any other incurred delivery costs for your selected options:

- Weekdays - £225
- Weekends - £450

Uplift & Recycle

We can arrange for the environmentally friendly uplift and recycling of your old refrigeration equipment when we are delivering your new item. Please note that the prices included within this document only apply when a) delivering a new item and b) when using our 5 day delivery service. Uplifts are not available with next day or courier deliveries.

Obstructions, Access Issues & Failed Deliveries

Should your site have any obstacles, obstructions or access issues (including vehicle size limitations) please contact our team for a quote prior to placing your order. We may arrange a site survey to evaluate the delivery and will provide you with a suitable quote.

We advise that you measure all doorways to the delivery premises prior to ordering, paying particular attention to the height and width of the door in relation to the size of the item ordered. If our delivery drivers are unable to fit the item that you have ordered through your doorway **we reserve the right to charge a failed delivery charge of £125+VAT.**

All our delivery options are based on pavement level access to delivery premises. This does not cover obstructions including stairs, parking restrictions etc. If upon arrival our delivery drivers cannot get access due to stairs, parking restrictions or any other obstruction then we reserve the right to charge a £125+VAT restricted access delivery fee.

Please note, it is the responsibility of the client to advise of any potential on-site issues or restrictions, failure to disclose this information prior to delivery will result in an aborted delivery and additional charge of £125+VAT.

Damages

It is essential that you check all items for damage upon delivery. In the unlikely event that your items are damaged or faulty upon delivery please raise this issue with the delivery driver immediately. Items left boxed and un-checked will be done so at the client's risk.

Failure to notify of damage at time of delivery will invalidate any future claim.

Restocking Fee

Any returned items are subject to a restocking fee of 15%. This is in addition to the cost of return delivery. Returns are only accepted if the item is unused, unopened and contained within its original packaging.

Terms & Conditions of Warranty

STANDARD WARRANTY

The warranty takes effect from the date of delivery and/or signed completion, subject to the following terms and conditions:

- The equipment was installed correctly.
- The equipment has not been subject to misuse, abuse or damage through careless operation.
- The equipment was purchased from Capital Cooling and proof of purchase can be supplied.
- The warranty is NON TRANSFERABLE.
- The equipment must have been maintained, cleaned and used in an acceptable way. Like a car, failure to maintain / carry out regular Planned Preventative Maintenance (PPM) invalidates your warranty.
- All equipment will be repaired on site during normal business hours (8:30 -17:00 Monday to Friday) by Capital Cooling or an approved service partner of Capital Cooling.
- Capital Cooling retain the right to attempt to repair the product without offering a replacement or replacement parts. Any replacements supplied are at the discretion of the Capital Cooling
- Should a replacement unit be required while the original is under warranty repair it can be hired, at a reduced cost, from Capital Cooling.
- The warranty applies to the refrigeration system and not the "fabric of the cabinet".

Replacement parts fitted during warranty period are subject to the original warranty expiration date of the equipment.

WARRANTY EXCEPTIONS

The following exceptions apply to all Capital Cooling warranties:

- Second hand, used, ex-rental and sale stock is excluded from the standard warranty. All units falling into these categories will have 30 day parts labour warranty unless otherwise stated.
- Our warranty covers mainland UK only unless otherwise specified
- Any modifications, 3rd party additions or changes from the manufacturer's standard specifications will invalidate the warranty.
- Components excluded from the warranty include, but are not exclusive to, failure/damage to shelves, door gaskets, brackets, lights, light fittings, light tubes, glass, keys, lock, outer case, plug, cables and night blinds.
- Any fault not reported within 7 days of identification.
- If the unit has had an attempted repair or modification from a 3rd party refrigeration company prior to contacting Capital Cooling.

- Failure to maintain the equipment to an acceptable standard invalidates ALL warranties.
- User error which results in damage or failure.
- Use of the equipment out with its specified operating conditions or approved purpose. Failures due to fire, power fluctuations (high or low), flood, act of god or any other uncontrollable circumstances.
- The warranty does not cover the contents/stock of the equipment (Food/Pharmaceutical etc.) Items in our Sale or Outlet sections are excluded from this.

PLANNED PREVENTATIVE MAINTENANCE

A PPM contract is essential to ensure that all of your commercial refrigeration and air conditioning equipment remains in good working order and operates at optimum efficiency.

Failure to provide proof that regular (1 PPM per 12 month period) maintenance has been carried out will invalidate any warranty that you have.

We will accept a job card showing the cabinet serial number and that the following work has been carried out as a minimum;

- Check cabinet for damage and condition
- Clean evaporator, drain and condensate drip pan
- Check fan blades, clean, adjust or replace as necessary
- Check all fan motors and lubricate as required
- Check operation of thermostats and/or electronic controllers including defrost cycle & cut off points
- Clean condenser with OFN/Coil Cleaner and brush out compressor compartment
- Check system for refrigerant leaks, repair as required
- Check lights and clean as required ensuring they are operating correctly

Capital Cooling can provide a list of approved PPM service partners upon request.

ADDITIONAL WARRANTY TERMS

The following warranty terms are in addition to all of our standard warranty terms & conditions and specific to the ranges outlined.

Multideck Doors
Sliding and hinged doors on multidecks will be covered for a maximum of 24 months from the date of delivery. Warranty will only cover manufacturing defects and not general wear and tear, customer misuse, cosmetic damage, damage caused through improper use, smashed glass or any other non-manufacturing based defect.
